Dear Glenda Wiles,

In March, you placed my letter in the Commissioner's Correspondence and I have yet to hear from anyone. Due to the increase gas prices, I now ride my bike as much as possible. The dust has become a huge problem. Many individuals driving on North Kootenai Creek Road are less than considerate when it comes to bike riders or pedestrians. Kootenai Creek Trailhead, according to the Missoulian, is the most popular trail in Ravalli County. Our road has no speed limit signs and cars travel at various speeds, creating more choking dust.

I have talked with many homeowners along North Kootenai Creek Rd and there is consensus on paving our road. I would like to petition the County to have the road paved. Please direct me to the department that handles matters related to this issue. I would also like to request petition guidelines. How many signatures do I need and does my petition need approval before being circulated.

I realize you are very busy and appreciate your help. Time is of the essence as the Road Paving Contractor, Shillinger, whom I spoke with in the spring, suggested there would be a savings to the County since they are paving Middle Kootenai Creek Rd and completing the road construction on 93.

I look forward to hearing from you.
